Assignment 5

edelsonc

September 8, 2016

This assignment will look at the aggregate function. We will look at this while investigating the difference between the salaries of female and male professor at an unnamed university. First the file is downloaded from the web.

Then it is read into memory using read.csv

```
f_path <- "/Users/edelsonc/Desktop/Data_Science/EDA/assignment_5/Salaries.csv"
Salaries <- read.csv(f_path, header=TRUE)</pre>
str(Salaries)
                    397 obs. of 7 variables:
   'data.frame':
##
   $ X
                   : int 1 2 3 4 5 6 7 8 9 10 ...
                   : Factor w/ 3 levels "AssocProf", "AsstProf", ...: 3 3 2 3 3 1 3 3 3 3 ....
##
   $ rank
                   : Factor w/ 2 levels "A", "B": 2 2 2 2 2 2 2 2 2 ...

Dependence of Salary on Other Variables

##

##

\$ sex

\$ salary

We can begin to investigate the effects of rank on salary using the **aggragate** function in R. Aggragating data is the simplist form of analysis, and using it we can look at how differenct groups of sex and rank recieve different salaries

```
aggregate(salary ~ rank + sex, Salaries, summary)
## rank sex salary.Min. salary.1st Qu. salary.Median salary.Mean
```

```
## 1 AssocProf Female
                              62880
                                              73680
                                                              90560
                                                                           88510
## 2
      AsstProf Female
                                                              77000
                                                                           78050
                              63100

Finally, it is equally as simple to look at how salary may depend on sex and discipline

aggregate(salary ~ sex + discipline, Salaries, summary)

##		sex	discipline	salary.Min.	salary.1st Qu.	salary.Median	salary.Mean
##	1	${\tt Female}$	A	62880	73350	78000	89060
##	2	Male	A	57800	87350	105300	110700
##	3	${\tt Female}$	В	71060	97030	105400	111200
##	4	Male	В	67560	94730	113600	118800
##		salary	3rd Qu. sa	lary.Max.
